SolAire
SUNROOFS

SolAire Power Inbuilt Series

Large opening provides great view and maximizes open air comfort.

Sliding sunshade matches the interior for a stylish finish.

Sunroof panel vents for interior comfort, or opens fully for added exposure.

One-touch control makes opening and closing the panel easy.

SolAire Inbuilt Sunroofs are available in five different models, with sliding sunshades, color-matched to your vehicle's interior. SolAire Models 4300, 5200 and 5300 has a factory-like substrate that maximizes interior

headroom. Most models offer one-touch control, a safety system to keep the sunroof from closing on obstacles, and an auto-close feature. SolAire Inbuilt Sunroofs add an elegant accessory to any vehicle.
